W/F	nat nercenta	ge of the ov	erall work do you	think each person	n did for the pr	oject?			
***	_		b	_	_				
Lo			e project. Based			u			
gro	up's presen	tation, post	er, and effort put i	n by the					
	oup, what gould get on t		u honestly feel th	e group					
Is t	Is there anything else I should know regarding the way the group functioned before doing the final grade?								

·	What did you like the best about working on the project?
,	What did you like the least about working on the project?
	ummarize your scientist's contribution to the development of the atom in the space below
ι	old you have fun doing the project? What would you recommend for changes/modifications to make it more un or be better at helping you learn a chemistry topic in a different way than we normally do?
